HE SERIES

High-Efficiency Water Softeners

EXPERIENCE THE DIFFERENCE CULLIGAN CAN MAKE.

CULLIGAN® HE SERIES

High-Efficiency Water Softeners

Introducing the World's Smartest Water Softener.

For high-efficiency water softening, nothing can match the intelligent design of the Culligan HE Series water softener. Just how smart is the Culligan HE? Smart enough to alert you to low salt levels and other issues. Sophisticated enough to be controlled remotely. And intelligent enough to let you customize your water's softness.

LIFE IMPROVEMENTS

BRIGHTER WASH

EASIER CLEANING

SPARKLING DISHES

HOT WATER EFFICIENCY

Control Your Softener from Anywhere in the House

Minimize trips to the basement or garage with our optional remote display. It warns of any problems and gives you push-button control over functions—like activating the electronic bypass valve to water your lawn.

Adjust the Feel of Your Water

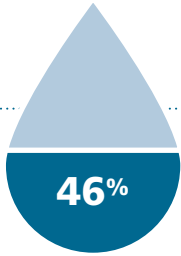

Culligan's Dial-a-Softness® control lets you choose the way you want your water to feel.

Consumers Digest Best Buy

Consumers who want better water for their homes, and an efficient system to provide it, can turn to Culligan's High-Efficiency (HE) Softener, which was rated a Best Buy in Water Softeners based on capacity, quality of construction, salt usage and warranty.

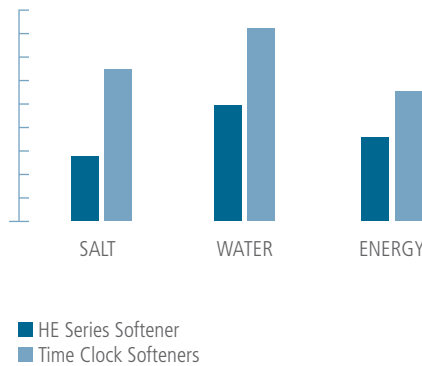

*The Best Buy Seal is a registered trademark of Consumers Digest Communications, LLC, used under license.

COST SAVINGS

Reduces operating costs up to 46%* with patented technologies to optimize salt, water and electricity consumption.

*46% less versus a time clock regeneration softener.

SYSTEM BENEFITS

	CULLIGAN HE SERIES	COMPETITORS
Reduces operating costs up to 46%*	•	
Remote by-pass valve	•	
Real time status updates	•	
Interactive remote control	•	
Controls the feel of your water	•	
Automatic adjustments to water conditions	•	

Softener Salt Management

Always know how long your salt will last. Culligan HE Series will tell you exactly how many days remain until you run out of salt, and when you need to refill.

Smart Technology

Smart technology means you get “set it and forget it” convenience. Our Aqua-Sensor® technology automatically adjusts to changes in water conditions—no need to reset the system throughout the year. With an optional modem, Culligan HE Series will even alert your Culligan dealer if salt is needed or your softener needs service so the dealer can arrange a service call before you even know there is an issue!

HEY CULLIGAN MAN!

At Culligan, we’ve been committed to providing superior water treatment products for over 75 years. Our units offer state-of-the-art electronic controls, innovative valve design, and are tested to the highest standard. Just as important, they’re supported by your Culligan Man®, a local water expert. Your Culligan dealer makes your decision easy as we can provide salt delivery, filter and media changes, rentals and financing options.

Dealer participation may vary. See details on back page.

PRODUCT SPECIFICATIONS

Patented Smart Technology

- Automatic bypass valve provides the convenience of bypassing the water softener from the softener itself or the remote display.
- Exclusive Culligan Soft-Minder® meter monitors daily water use and provides advanced system diagnostics.
- The easy-to-read back-lit display with digital clock lets you know your softener is working and warns of system malfunctions.
- Culligan's Dial-a-Softness control lets you choose the way you want your water to feel.

Options Available

- Optional proportional brining allows your softener to only regenerate that part of the resin bed that has been exhausted, which reduces salt usage.
- Culligan's optional patented Aqua-Sensor® technology automatically adjusts to changes in water conditions so the softener only regenerates when needed, saving you salt, water and money.
- Optional smart brine tank automatically monitors salt levels and tells you how many days of salt are remaining.
- Optional remote display makes it possible to control and monitor the softener from virtually anywhere in the home†.
- Optional modem can alert Culligan dealership if salt is needed or softener needs service.

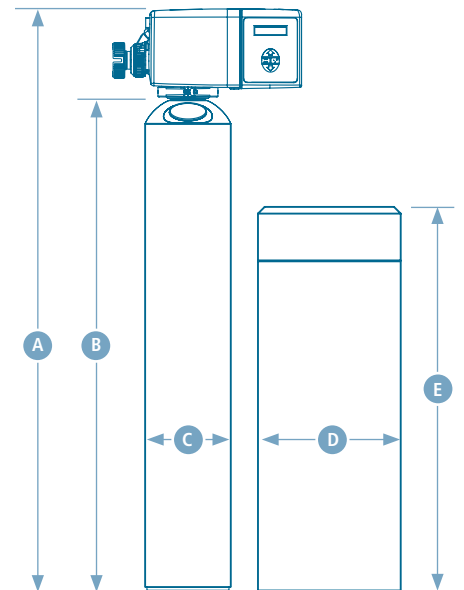

† Requires 120 VAC

12"	60"	52"	12"	18" with 375 LB Brine Tank	43"
14"	73"	65"	14"	24" with 600 LB Brine Tank	42"

Exclusive Reliable Design

- Exclusive, non-corrosive valve using motorized pistons that provide more reliability than rotary valve systems.
- High-impact Quadra-Hull® Tank stands up to outdoor use with a four-layer design that resists UV rays, rust and corrosion. Limited lifetime warranty.
- With the Cullex® resin media your water softener is assured stability and long life. High-grade quartz underbedding evenly distributes water to maximize flow rates.
- Long-lasting brine tank with corrosion-proof components and Dubl-Safe brine refill control assure proper operation.
- Culligan HE Series also available as an outdoor model.
